MISS SAWYER'S SALVE.

HERE you have a salve combining soothing and healing properties, with no dangerous ingredients. A remedy at hand for the many pains and aches to which flesh is heir. [illegible] other remedies, [illegible], but always relieving [illegible].

It is prepared by Miss Sawyer, who has used it in her own extensive treatment of the sick, for nearly twenty years, with great success.

The principal diseases for which this salve is recommended are, *Chilblains, Rheumatism, Piles, Scrofula, Old Ulcers, Salt Rheum, Sprains, Burns, Fever Sores, Felons, Pimples, Erysipelas, Sore Eyes, Barber's Itch, Deafness, Boils, Ringworms, Corns, Bites of Insects, Cancers, Toothache, Earache, Sore Nipples, Baldness, Swollen Breasts, Itch, Scald Head, Teething, Chapped Hands, Scalds, Cuts, Bruises, Croup, Cracked Lips,* and *Sores on Children.*

It never fails to cure Rheumatism, if properly applied. Rub it on well with the hand three times a day. In several cases it has cured palsied limbs. For *Piles* it has been discovered to be a sure remedy. Persons that have been afflicted for years have been relieved by a few applications. For *Erysipelas* it works wonders, allaying the inflammation and quieting the patient. For *Chapped Hands* it produces a cure immediately. Let those with *Salt Rheum* obtain this Salve, and apply it freely, and they will find it invaluable. It is good in cases of *Scrofula* and *Tumors.* Cancers have been cured with it. The best Salve ever invented for *Swollen Breast* and *Sore Nipples.* No way injurious, but sure to afford relief. *Sore or Weak Eyes*—Rub it on the lids gently, once or twice a day. Cures deafness by putting in the ears on a piece of cotton. For *Felons* this is superior to anything known. For *Pimples* this acts like a charm. For *Burns* and *Scalds,* apply the Salve at once and it gives immediate relief. For *Old Sores,* apply once a day.

Not among the least of the invaluable properties of MISS SAWYER'S SALVE are its beneficial effects on the hair. Rubbed on the scalp, in five or six different parts, it promotes the growth of the hair, prevents it turning gray, and on bald spots it produces a new growth of hair. No lady should be without this invaluable article as an indispensable cosmetic for the toilet. It eradicates dandruff and disease from the head, and blotches and pimples from the face.

From Mrs ELIZABETH COOMBS, Brunswick.

Brunswick, April 4, 1867.

MISS SAWYER. I received your letter last evening and was very glad you concluded to let me take your Salve. I think I can do well with it, and it will be quite an accommodation to my husband, *as he cannot get along without it.* He has tried everything else and has never found anything that healed his leg as that Salve of yours, and we have both found it to be *all, and even more, than you recommend it to be.* We have had it in the family five or six years, and have used it for everything, and can *truly say we have never found its equal.* I use it for a weak back, and it acts like a charm. Mr. Coombs has had a *Fever Sore on his leg for thirty years, and would be a cripple to-day, if he had not found a remedy in your Salve.* It keeps it healed, and takes out the inflammation, proud flesh and swelling, and does for him all that he can ask. I can recommend it for a good many things that you have not, for I use it for everything. I consider it invaluable in a family. If you can put this testimony together, and it can be of any service to you, you are welcome.

Yours, &c., ELIZABETH COOMBS.

It is believed that the advantages now presented at this Institution to students who wish to pursue a partial or complete course of study are unsurpassed by any of its class in the State. The Teachers are experienced and efficient, and spare no pains to render the Instruction thorough in their respective departments.

The Boarding Halls are heated throughout by steam, and Hersey Hall (recently erected, and exclusively for young ladies) is provided with all modern conveniences.

The several courses of study have been arranged with great care, to meet the wants of all classes of students. The common English branches, as well as the higher English and classical, receive careful attention.

Good Philosophical and Chemical Apparatus, together with a large Cabinet of minerals, enable the students in Natural Science to have the subjects discussed amply illustrated by experiments. A Normal Class, under the instruction of the Principal, is organized for the benefit of those desiring to teach. Special facilities are afforded to students in Music, Drawing and Painting. Board, including fuel and lights, is $3 50 per week. Tuition, for fourteen weeks, ranges from $5.50 to $8 50. Good accommodations are provided for those desirous of self-boarding.

The Spring Term of 14 weeks will begin

CHICAGO, [illegible] & [illegible]

FIRST MORTGAGE BONDS,

Issue $18,500 per mile,

ON A FINISHED ROAD.

THE LEADING POINTS IN RELATION TO THESE BONDS ARE AS FOLLOWS:

1st. The Stockholders have built a first-class road, and equipped it in a first-class manner.

2d. They have built their road through one of the richest portions of the State, where all the old roads into Chicago are earning over $10,000 per mile per annum, and are paying large and regular dividends.

3d. They have built the shortest road to the celebrated Block Coal Mines, whose products have a large and increasing market in Chicago, in the manufacture of iron, as well as for domestic uses.

4th. The road is done, well-equipped, and doing a large business.

5th. The portion of the road opened for business last year, *earned more than 30 per cent. net above its interest liabilities.*

6th. The amount of the mortgage is very moderate, being only about $18,500 per mile.

7th. While Railroad Bonds may be plenty, those upon finished paying lines, and for so small a sum, are seldom in the market.

8th. That as the amount remaining unsold is less than $1,000,000, parties who want them should make immediate application.

The Bonds are for $1,000 each, have forty years to run, and bear interest at the rate of 7 per cent. per annum, payable on the first of April and October, both principal and interest being payable in gold in New York.

We do not hesitate to recommend these Bonds as unusually safe. They are attended with none of the uncertainties of projected enterprises, and the prompt payment of the interest, and the final payment of the principal, are as certain as any future financial event can well be. We are selling them daily to the most careful investors.

PATENT LIGHTNING SAW
EXTRA SPRING STEEL WARRANTED REFINED
SUPER
NOV. 27, 1860
JULY 21, 1862
JAN. 14, 1868
JULY 27, 1869
EBEN MOODY BOYNTON
NEW YORK
Front view M teeth, showing dress and set of two points to cut in line.

NOT ONE FAILED IN 20,000.

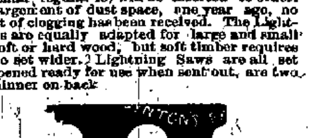
The New Year finds the LIGHTNING SAWS universally acknowledged to lead the American market. No manufacturer of saws has dared to question or publicly test, at the American Institute or elsewhere, the matter of superiority of the latest improved Saws. The $500 challenge for expenses of public contest is engraved on each saw.

All teeth are cutters, and simple as old V. All Saws warranted to Coal and Touch uninjured.

The large increase of the business has compelled lease of No. 80 Beekman-st., and arrangements for the manufacture of five thousand LIGHTNING cross-cuts per month, and hope to be able to fill all orders promptly.

The supply has been unequal to the demand for the LIGHTNING BUCK SAW, but hereafter I will endeavor to keep a stock on hand. The sale of several thousand dozen of the above-mentioned saws causes belief that they are the best blades in the market. All Lightning Saws are indelibly etched with my name, the Cross-Cuts with directions for filing, using, &c.

Each Lightning Saw will coil and touch ends uninjured. Not one in twenty thousand has proved imperfect, so thorough is the inspection of these regular goods; but, for the benefit of such unskilled men as cannot set and use a thin Saw, a guage heavier (than regular 15) will be inserted to order. Since enlargement of dust space, one year ago, no complaint of clogging has been received. The Lightning Saws are equally adapted for large and small timber, soft or hard wood, but soft timber requires saws to be set wider. Lightning Saws are all set and sharpened ready for use when sent out, are two gauges thinner on back.



"THE GREATEST INCLUDES THE LESS."

Note extra steel and durability as contrasted with old V outlined on M tooth. After wearing teeth out they may be recut, or sold to some admirer of the old V friction process, used by all other Saws.

This Saw differs from all the well-known clearing-teeth Saws in use. The Lightning teeth are also beveled blades for cutting, while clearing-teeth used by all other patent Saws are dust-removers merely, requiring to be shortened, and are left full thickness of saw-plate, as they do no cutting. The Lightning Saw is designed to cut timber by direct action both ways. If one point of M tooth was set one way and one the other, the slant would ride and lift out the tooth. Most of the large Hardware Jobbing Houses in America now handle my goods. BEWARE of worthless infringements, for which I am seeking legal redress under Patents, Trade Mark, and Copyright.

NEW-YORK, AM. INSTITUTE FAIR BUILDING,
Nov. 4, 1871.

E. M. BOYNTON, 78 Beekman-st., New-York—SIR: This certifies that I saw the Lightning Cross-Cut Saw, worked by hand, by two men, Nov. 2, at this Fair. Said men and saw cut off a sound [illegible] chestnut log in 3½ seconds; and 16 cuts of same, *continuously,* in two minutes and 18 seconds, or at a rate of a cord of wood in less than nine minutes. I am satisfied that for all purposes of cross-cutting large and small timber, your cross-cuts and wood saws have no rival in speed, in ease, and in simplicity.

I believe their universal use would save a vast amount of money and time, and lighten the toil of millions of men. J. W. BLAKE,
Superintendent and Engineer American Institute Fair.

N. B. These extreme tests are quoted merely to prove what should be obvious—that direct cutting is better than the old V friction process *used by all other saws.*

Honest hardware men will procure the genuine for their customers, even if they are overstocked with inferior goods, and where they do not keep them, Agents are wanted. A six-foot Cross-Cut and Buck Saw sent [illegible] Express will cost from 40 cents [illegible] places this side of the Mississippi River by special contract.

PAY OR FIGHT.—The way in which such a panic was got up in London about the treaty of Washington is shown by the English papers since received. The London Advertiser of the twelfth inst. had the following editorial:

> The course of England is now plain; it admits of no optimist aspirations and delays.—We must be prepared to pay or fight. The whole resources and energies of the empire should be at once put forth. Fifty millions or a hundred will be dirt cheap to place us in a position of dignity and safety, and they would be spent among ourselves and on our own people. A hundred millions will soon be poured into the sea, or be lavished over foreign mercenaries, supposing we could get them, which we very much doubt, if we drift into war after our usual fashion. Let the Queen send for a statesman, if she has one in her realm, and let the Admiralty and War Office be placed under the absolute control of able professional ministers of war and marine. Let an order in council proclaim that no arms or munitions of war, and, above all, that no steam coal leave the kingdom for any foreign State. The emergency justifies all. Let a tempting bounty be offered for seamen and soldiers. Let us act as if we had a Cromwell and a Moltke to put our house in order. If this is declared chimerical, all we can say is, that there is chimera overshadowing us that will soon present the feature of a dead reality, when it may be too late for resistance. Practical men say that the oft-repeated boast of the efficiency of our navy is a delusion and a snare. For the rest let any one look at this unarmed, overcrowded population, struggling as it is for existence, buying, selling, chaffering, coming and going to and fro, without a sense of the appalling danger that overhangs it, and say what the state of things would be if, whilst our fleet and scanty soldiery were engaged in a contest with a mighty power like America, we should be invaded by Cossack and Uhlan, and subjected to the tender mercies of the conqueror stimulated by twice the hatred and savagery that we have seen manifested in France. It is a poor consolation to think that the workers of the ruin of this mighty empire, who in one short age have spread contagious degeneration around—their fatal legacy and deadly gift—shall be denounced as long as their wretched names are remembered, as the fanatics of greed, the maddest worshippers of hypocracy and selfishness that the world has ever seen. Those who may hereafter designate our Anglo-Saxon off-shoot in the west as the Parricide of Nations, who may live to see in their day retribution sitting on the blood-stained hearths of one or other or all of our foes, after a generation of strife shall have decimated the world, will yet confess that England deserved her fate. Britons shall have the same pity as the people of Tyre and Sidon, of Babylon and Carthage—their glories shall be forgotten, and the memory of their lust of gold and effeminacy alone remain as a byword; a warning, and a reproach.

GROWTH OF PINES. During a recent visit to Lincoln county, we saw in the northeastern part of Alna and in that portion of Whitefield adjoining it, quite extensive tracts of splendid pine woods, the trees standing very thick, and running up straight and tall. There are several lots belonging to different parties of from fifteen to twenty-five acres in extent, and from some of these considerable quantities of timber are now being cut.—Years ago the land upon which this pine growth is now standing was covered with a growth of white and red oak, which was cut off for staves. There were manufactured, sold in Wiscasset, shipped into the West Indies and brought back filled with molasses.—Nearly all the large oaks along the coast were used for this purpose, and the ground is now producing a growth of pines. Mr. David C. Pottle of Alna informs us that fifty years ago his father, while gathering oak timbers for staves, drove his oxen and sled over the tops of small pines that are now forty, fifty and sixty feet high, and that will scale from four hundred to one thousand feet of lumber. Some of these trees are now two feet in diameter at the ground, the average being eighteen inches. The profits of these trees have been as good as money at ten per cent interest, and yet our farmers fail to grow forest or timber trees, thinking they and their children will not get paid for the trouble.—Behold these facts, and let some of your waste land grow up to trees for your children's benefit and profit, if not for your own. "THE INTERNATIONAL PEACE JUBILEE.—Seven of the most difficult choruses to be sung at the Jubilee has been printed for distribution among the singers, and copies will be forwarded to the societies as fast as returns are received embodying the information asked for in Chorus Circular No. 2. The music has already been sent in to such societies as have already thus reported. The seven pieces of music comprise some twenty-five pages, and are as follows: Two Chorals from Bach's "Passion Music"—"Commit thy Ways" and "Now may the will of God;" Chorus from Mendelsson's "St. Paul"—"See what love hath the Father:" Chorus of Levites—"O ye kindreds of the people"—from Costa's "Eli;" the Triumphal March with Chorus and Solo—"With sheathed swords and bows unstrung"—from the same work; Chorus from Handel's "Messiah"—"All we like sheep have gone astray;" Chorus of the People from Mendlessohn's "Elijah"—"Yet doth the Lord." The rest of the music will be got in readiness as soon as possible.

In December a young lady named Anna Roys disappeared from Wurtsboro, N. Y. who had always borne a good reputation and nothing was afterwards heard from her until on Thursday last, there arrived at Wurtsboro a coffin encased in a pine box, upon which was the address of the missing young lady.—The box was sent to the home of her father, and upon its being opened, it was found to contain the remains of Miss Roys. The body of the unfortunate girl was buried on Friday, but on Saturday, public opinion being such that an investigation was a necessity, the Coroner had the remains taken up, and an inquest was ordered.

CHICAGO HOTELS.—Almost before the ground had grown cool after the fire, Chicago whose principal hotels were all destroyed by the conflagration, had perfected plans and contracted for the erection of others to fill their places. Five magnificent caravansaries are already under way, and the journals of that city boast that within a year it will have more ample and elegant accommodations than it ever possessed before. All of these five hotels now in process of erection will be larger than those which were destroyed while it is said that three of them will rival any hotels upon the continent in beauty of external appearance and convenience and elegance of interior arrangement.

Monday afternoon a young girl named Mary Alexander, accidentally fell down a flight of stairs in the factory of Sawyer, Webb & Co., in Portland, where she was employed.—Her collar bone and shoulder blade were broken and she received other injuries. The employees of the establishment, with commendable liberality, immediately raised a purse of $100 for the benefit of the unfortunate girl.

MAINE LEGISLATURE.

AUGUSTA, Feb. 29.

SENATE—FORENOON SESSION.

Mr. Farrington asked leave to present a bill authorizing the town of Fryeburg to aid in building the Maine General Hospital at Portland, to the extent of $1,000. Opposed and withdrawn.

A large number of bills, acts and resolves were passed in concurrence.

Resolve in favor of chapel at Insane Hospital came from the House indefinitely postponed. Senate insisted on passing resolve to be engrossed and appointed conferees.

Act regulating number and compensation of clerks in the different departments, was taken up and caused quite a discussion. It had special reference to discontinuing the clerkship in the office of Superintendent of Schools. It was indefinitely postponed.

Senate agreed with House in constructing the law so that members of the Legislature shall have travel both ways in attending sessions.

Passed to be enacted—Act incorporating Maine Industrial School for Girls; act relating to duties of school agents; act concerning corporations; act incorporating Riverside Railroad Co.; act amending charter of Riverside Railroad Co.; act relating to duties of Sheriffs; act incorporating Castine Telegraph Co.; act authorizing Brewer to aid Bangor Water Power Co.; act respecting reserved lands; act abolishing solitary confinement in State prison; act to authorize Portland to aid in construction of Porland & Rochester Railroad; act concerning inn-holders.

Finally passed—Resolve authorizing a temporary loan; relating to fencing grounds of Normal School at Farmington; in favor of W. H. Quimby; in favor of Rodney C. Barker; in favor of town of Gilead; in favor of Soldier's Orphans Home at Bath; in favor of Carl Vose; in favor of Luther B. Rogers; of Maine State Library; of Children's Home in Bangor (granting $2,000); of Arthur S. Grant; in aid of Dead River; in regard to settlers' claims, changing valuation of certain towns; in relation to Niagara ship canal.

HOUSE—FORENOON SESSION.

Most of the forenoon session was occupied with a "paper ball session."

Resolve relating to Maine shipping and ship-building interests caused a long discussion and was passed to be engrossed, with slight amendment.

A resolve was passed deciding that the law allows the expense of travel of members of the Legislature both ways instead of one way, as formerly understood.

Fourteen members were excused from further attendance.

Bill establishing uniformity of text books was assigned to "All Fools' Day."

Act in regard to compulsory attendance was indefinitely postponed.

Reference to next Legislature in concurrence—Act to improve Jail system of Maine; act defining duties of Superintendent of Insane Hospital.

Act to establish woman suffrage at Presidential elections came from Senate passed to be engrossed. House refused its passage—71 to 43.

Resolve relating to clerks in the several departments passed to be engrossed.

Same acts and resolves that were passed in Senate (see Senate report) were passed to be enacted and finally.

Ordered—That Sup't and Trustees of the Maine Insane Hospital ascertain the expense of removing the unfinished chapel to the rear of the main hospital building, and report to the next Legislature.

STATE NEWS.

Mrs. Buckley of Sullivan fell on the ice two or three days ago, and fractured her wrist.

The spring term of Gorham Seminary began Tuesday with 123 scholars in attendance.

The water mains in Portland have been affected by the extreme depth of frost in the ground.

The Lewiston Journal says a young lady has made application at one of the law offices in that city, to study law.

The Calais Times says good pressed hay can be bought in that city at $24 per ton. It is brought from the Aroostook, and the Provinces.

The Argus says that two ladies were thrown from a sleigh on the Western Promenade at Portland, Sunday, and one of them had her leg broken.

Col. A. B. Spurling formerly Sheriff of Hancock county, has been appointed a Government Detective and is ordered to report at Washington.

Just now cut feet seem to be quite fashionable at Sullivan.——Wilson, Geo. H. Dunbar, Chas. Dunbar and Geo. C. Emery "have been and gone and done it."

Maj. W. S. Hains of Hallowell, had occasion to drive to Winthrop on Monday, with the hearse. On his return the wind was so violent that it actually blew the vehicle over somewhat injuring the Major.

A line of freight propellers between Calais, Portland and Boston, has been inaugurated at Calais, and the Times says it meets with much favor, the capital stock of $100,000 being taken up as rapidly as could be expected.

Hannah Preble of Sullivan, about eighty years of age, fell down stairs the 16th instant, receiving severe injuries. One leg was found to be broken, and the other was so badly hurt that she was deprived of the power to move it.

It is proposed to recognize the Witham Agricultural Works at Winthrop, on the basis of a joint stock company, with a capital of $40,000. Outside parties propose to take one-half of the stock if Winthrop parties will take the other half.

Hon. Joshua Nye, of Augusta, one of the commissioners from this State on the grand centennial celebration of the Independence of this country, will leave for Philadelphia on Thursday, to attend the first meeting of the commissioners from the several States.

Captain David Smith of Vinalhaven, is living, at the age of 87 years, and his wife 83.—They have had ten sons and three daughters, thirteen in all, who are all living and well settled in life. Capt. Smith followed the sea for many years. His oldest son is sixty years old.

Rumor says that a young lady of Paris has sued a prominent young man of that town for $200, as damages for wood and oil burned while paying his attentions to her, and that the case is coming to trial at the next term of the Supreme Judicial Court. Cause—young man now engaged in courting another young lady.

The Calais Times says the teams are returning from the woods partly on account of the exhaustion of the lumber in the regions selected, but mainly on account of the depth of the snow retarding operations. Many more logs, however, will be hauled than during last year, the weather having been very favorable for operations the first part of the winter.

The Lewiston Journal says, the snow in the northern part of Oxford County is five or six feet in depth, and for the past few days the wind has been blowing terrifically, blowing the snow about and piling it in such quantities upon the G. T Railway track that the trains have been unable to get through. On Monday, the down trains got stuck in a drift between West Paris and Gorham, and they were only able to get as far as Bethel, where the passengers spent the night.

The Lewiston Journal says a curious letter was received at the Secretary of State's office, Monday, transmitting a J. P. Q.'s commission and resigning all its honors. The following is a verbatim copy: "Dear Sir,—I hereby resign my commission as Justice of the Peace, as I (having professed faith in Jesus Christ, and taken the Bible, which is the word of God, for the man of my council,) can no longer conscientiously perform the duties of the office, or act up to the oath to which I subscribed before the qualifying officer. Yours," &c.

At the adjourned meeting of the Lewiston and Auburn R. R. Co., at the Common Council Rooms, Monday evening, By-Laws were adopted and Directors elected as follows:—N. W. Farwell, E. F. Packard, S. R. Bearce, J. G. Coburn, Ara Cushman, J. B. Ham, N. Dingley, Jr., Daniel Holland, Howe Weeks. It was voted that the Directors be authorized to lease the road on such terms as may be judged proper; to take measures to secure necessary means for constructing the road; and to locate and enter upon the work of construction when sufficient stock shall be secured.

NEW MAGAZINES.

THE WESTMINSTER REVIEW for January has among other interesting articles a chapter on "The Political Disabilities of Women," in which the writer takes the ground that laws will never be made for the protection of woman in her property and maternal rights until she shall herself have the power to help make them. The contents of this number, especially that part devoted to "Contemporary Situation" is even more brilliant and comprehensive than usual. Re-published by the Leonard Scott Publishing Co., New York.

AMERICAN HOMES for March contains contributions from George Alfred Townsend, Jay Benson, E. J. Hudson, Mrs. Leonard, and other able and interesting writers. Charles H. Taylor & Co., Boston.

THE OVERLAND MONTHLY for March is early at hand, with a table of contents that promises a rich treat to all lovers of good reading: "Leslie Lyon" is a hitherto unpublished poem by the late Alice Cary, "Some Savages" is a curious and somewhat startling description of the real "Apache," while the chapter on "Sea-Lions" will be a rare tit-bit to all interested in the study of natural history. John H. Carmany & Co., San Francisco.

MR. SUMNER'S POSITION.—Col. Hinton the regular Washington correspondent of the Worcester Spy, writes:—

> It may be heresy to say in Massachusetts what I am about to do, but a sense of duty demands of me the expression of my belief that Mr. Sumner, in the course he is pursuing on the arms investigation resolution, gives evidence that personal hostility to the President so far perverts his judgment as to cause him to take, not only weak and untenable ground, but to pursue the same with an apparent disregard of any consequences but those that affect the personal position and future of Gen. Grant.
>
> The only really weak speech I have ever heard your senior Senator deliver in the Senate Chamber, is the one he recently made in opening the present debate. It appeared to me as if he was not really master of his case. I think that this was the general opinion of the sharpest critics here, the denizens of the reporters' gallery. Most of them left before Mr. Sumner was half through. They generally pay him the compliment of close attention one, too, which only two, or at most, three other men receive. The critical judgment of the reporters' gallery is against Mr. Sumner. Its denizens say among themselves no matter what they wrote to their several newspapers, that the Massachusetts Senator has a weak case, and has failed in his presentation also.

TO ACTION.—Young men, gird on the armor and prepare for usefulness, by fitting yourselves for positions of trust. Awake to the importance of being thoroughly qualified for business, and depend on it, you will reap your reward. We have two classes of men; engineers and passengers. There are too many passengers, too many foolishly complaining ones, who ride recklessly through life, never attempting to improve the opportunities on all sides presented to them. The business interests of the world have no need of second-class men, but those who are qualified and determined to stand in the front rank always have the necessary opportunity to rise.

CRIME AND IGNORANCE

Official documents are in general not the most entertaining of reading, but the recent report of Commissioner Eaton, of the Bureau of Education, is valuable in this respect, showing the origin and the fostering of most of the crime that pervades a country. There could not be a more conclusive support of the argument that education and morality go hand in hand, than the figures which he gives. Comparing them with the careful research of the New England States, The Boston Journal finds certain conclusions indicated beyond all question. For instance, it appears that at least eighty per cent. of the crime of New England is committed by those who have no education, or none sufficient to give them a valuable purpose in life. In 1868 twenty-eight per cent. of all the prisoners in the country were unable to read or write. About one-third of the crime of the country is committed by from three to seven per cent. of the population, while actually less than one-fifth of one per cent. is committed by those who are educated. It is not, however, the education of the school house only that is valuable in this respect, for it is found that from eighty to ninety per cent. of criminals have never learned any trade or mastered any skilled labor. Moreover, it is established that not far from seventy-five per cent. of New England crime is committed by persons of foreign extraction; that from eighty to ninety per cent. of our criminals connect their vicious courses with intemperance; and that in all juvenile reformatories ninety-five per cent. of the offenders come from idle, ignorant, vicious homes.

Here we have the whole story of our criminal population and our dangerous classes. The sketch is merely in outline—in charcoal, if we may say so—and needs shadings and discriminations which cannot be supplied in the present state of the statistics. The several conditions of crime noted above blend with each to some extent. It is, for example, no fault of a man that he is a foreigner in this country, and that fact of itself does not predispose him to misconduct, for Commissioner Eaton observes that the immigrant coming hither with education, either in schools or labor, does not betake himself to crime. But it does too often happen that the immigrant is both ignorant and inclined to intemperance, in which case he is subject to less restraining influences than the native who is equally wanting in intelligence and sobriety. Again, ignorance panders to intemperance, while intemperance is notoriously the parent of ignorance. Without regard, however, to these distinctions, it is perfectly apparent what are the feeders of our jails and poor houses, and the chief tributaries of the streams of poverty, vice, crime and suffering which are rolling their afflictions through every section of American society. They are want of education—of the hand as well as of the head—and the intemperance that is almost always found associated with it.

There is considerable expectation that the "Liberal" Convention at Cincinnati will endorse the nomination of Judge Davis for the Presidency by the Labor Reformers, and there is a well organized movement to that effect in existence. If it succeeds Mr. Trumbull is left out in the cold, as there can be no doubt that he was the choice of the disaffected Republicans as against Grant, and they desired him as a candidate. This result reveals the key of that Senator's speech last week, in which he cut himself very nearly loose from the regular party organization, but left an opening for a return in case the events of the next few months may decide him that way.— The Davis scheme thus infringes upon the intentions and wishes of at least a portion of the directors of the Cincinnati Convention, and may have the result of creating a split before the opposition to Grant's crystalized into shape and substance. Outside of the great majority of the Republicans who will support the nominee of the Philadelphia Convention, the political elements are all at sea and without either guidance or control.— The prospect is that by the time the nominations are made we shall have simply the issue of the Republicans and Democrats.

A Washington correspondent states that Secretary Fish read his amended draft of a reply to the last note of Earl Granville, relative to the Treaty of Washington, at the Cabinet meeting on Tuesday. Some unimportant changes were suggested, but it is very evident that he is firm in demanding a reference of the consequential damages to the Geneva arbitrators, though he regards a settlement of the principles of international law involved as of more importance than any amount of damages claimed. There is a rumor afloat that some of the holders of Alabama claims proper are quietly negotiating for their payment by the British government.

SEWARD ON THE TREATY. An "interview" with ex-Secretary Wm. H. Seward at Auburn, N. Y., Wednesday, elicited his opinion on the Washington Treaty. He considers that a great omission exists in the present treaty, inasmuch as it does not insist upon an apology by England for the Queen's proclamation, but that war with England is impossible and that the time for the settlement of the Alabama claims has not yet arrived. The demand for a sum of money for consequential damages is, in his opinion, beneath the dignity of our government.

An Ottawa dispatch states that Hon. James Howe condemns the policy of England in withdrawing its troops from Canada, and predicts a rupture between the home government and the dominion if a better understanding is not soon arrived at. He jeers at "the cowardice of England in concentrating its army and navy around the island of Great Britain," urges independence as the only course open to Canadians, and asks the people to prepare for a separation.

A Salt Lake letter says that ballot stuffing and repeating in the palmiest days of Tammany never equalled that in the recent election in Utah, and that a committee of safety had been organized, urging the citizens to pay no more taxes till the city treasurer renders an account of the funds.

Among the first cases to be presented to the Grand Jury of the Criminal Court at Washington next week, will be information against Mr. Prosser, charging him with having received money for prosecuting a claim before the Quartermaster's Department while he was a Representative in Congress.

A Paris dispatch states that the diplomatic authorities there are confident that England will finally admit the competency of the Geneva board of arbitration to consider indirect claims. It is expected that the American reply will be quite as conciliatory as Earl Granville's note.

The German Government has notified the French Minister of Finance that it will accept the anticipatory payment of 410,000,000f of the war indemnity, with a discount of five per cent. Pouyer Quertier will immediately pay the amount, thereby saving 20,000,000f.

It is rumored that the Prussian ambassador at Paris is negotiating with the French Government for the return of Polish emigrants.

LETTER FROM AUGUSTA.

AUGUSTA, Feb. 29, 1872.

To the Editor of the Whig and Courier:

Yesterday and to-day have witnessed a "slaughter of the innocents," and some of the other kind in the shape of modest little bills which have been held back to the closing hours of the session. Last evening the House sat till a late hour indefinitely postponing the business on the table, the most important action being the defeat of the bill authorizing town aid to manufactures. Mr. Titcomb of Augusta opened in favor of the bill with a strong array of facts, citing the case of Augusta where over $1,000,000 of foreign capital has already been brought in by the action of the city in contributing to the Sprague purchase, while outside of this the taxable valuation has increased by almost a million of dollars within three years, and $50,000 of the debt has been paid in the same period.

Pike of Calais, was unprepared for these statistics, but made a slashing attack on the bill from behind the entrenchments of the Supreme Court opinions of constitutionality obtained by his adroitly worded inquiry of last winter. He eulogized Chief Justice Appleton and read copiously from his opinion.

Lebroke of Foxcroft replied, referring to the question propounded to the Court as calculated to mislead and almost "fraudulent" in its construction, and quoting the views of Judge Cutting as those of one of the ablest jurists in the country, concluded with a spirited appeal for progressive legislation.—

After a sharp skirmish the bill was defeated, as too important for passage in the disorderly state of the House.

A new phase in the "anti-Johnson conspiracy" turned up to-day in the reception by Secretary Stacy through the mail of the bills relating to the office of Superintendent of Schools, which recently disappeared so mysteriously when wanted. These papers were brought by Mr. Johnson to the Governor's room to be examined by Mr. Hunt of Robbinston. That gentleman declining to go over them at that time with the Superintendent, the latter gave them to the member to scrutize at his leisure. It is understood that Mr. Hunt and Carleton of Whitefield overhauled them them thoroughly at the hotel, and the papers were last "heard" from in the hands of those gentlemen. When called for Mr. Hunt stated that they had been taken from his desk, when Carleton promptly attacked the Superintendent as subject to suspicion, in connection with this theft, and in the midst of a fiery encounter between "Whitefield" and Porter of Burlington, Smith of Saco introduced a proposal to abolish the office of Superintendent. An uproar ensued, and in the reaction caused by Porter's statement that the papers were last in the hands of the parties now assailing Mr. Johnson, the House tabled the whole subject. To-day the papers came back through the mail as above stated, with the endorsement: "Dam Johnson—Hunt is innocent." There is now hardly a doubt entertained that the whole affair has been a conspiracy, and there are probably as few doubts of the identity of the "voucher thief." The Legislature should have thoroughly sifted the scandalous business, but having failed to do so public opinion will be likely to "investigate" the participants in a manner least satisfactory to themselves.

The "paper session" has commenced and a spectator of the performances in the House, would imagine members were availing themselves of the natal privileges of a certain day in April, to which their sense of humor has referred so many important measures. Some genuine fun was created however by the discussion of a burlesque bill entitled "An act to incorporate the Abel Loom Company," the remarkable provisions of which, together with the eccentric amendments offered, elicited storms of applause and laughter from those who were not "hit." The discussion was enlivened by a speech in French by Peter Charles Keegan, which was rather more intelligible to the audience than many of the efforts at English, with which his associates have illumined the session.

The Fifty-first session is now in its "flurry" and will give its last kick before to-morrow noon. Members are leaving to-day and in twenty-four hours the shells of the "mollusks" will know them no more—for the present.— Some one has suggested as an epitaph for this body,

"They were fine old country gentlemen, all of the railroad sort."

SLEEPER.

POLITICAL AND PERSONAL.

Fournier has been nominated French Minister to Rome.

Senator Stewart is seriously ill of throat disease.

The health of Emperor William is improving.

Ex-Judge Troy of Brooklyn has sued the Brooklyn Eagle for $10,000 for alleged libel.

It is understood that H. P. Farrow, the present Attorney General of Georgia, will be appointed U. S. District Attorney for Georgia, vice John D. Pope, resigned.

In some of the Ohio cities the colored children are still refused admission into the public schools. The Southern portion of that State was largely settled by people from Virginia and Southern Pennsylvania, and the old time prejudices against the negroes still exist there and are likely to continue for many years, even though they are admitted to the full enjoyment of civil and political rights.

Hon. Thos. H. Browne, the standard bearer of the Indiana Republicans, is a young man who a little more than twenty years ago gave up a clerkship in a country store to study law. The early days of the war found him a member of the State Senate, but he resigned his seat and enlisted as a private in the Union army. He was rapidly promoted, and won high honors in the field. He is now District Attorney for Indiana, and is said to be a very popular and able man, with a stainless character, and the Democrats will find him a most formidable candidate.

The Albany (N. Y.) Journal enumerates the various States that have already chosen delegates to the Republican National Convention, and sums them up as follows:

States and Territories for Grant, with distinct instructions—New Hampshire, Indiana, Kansas, South Carolina and District of Columbia.

States for Grant by incomplete official action—Maine, Ohio and Georgia.

States without instructions, but fairly held to be for Grant—Connecticut and Missouri.

States against Grant thus far—None.

Maine should be counted in the "first-class."

"GOING WEST"—AND GIVING IT UP. The Baltimore American makes this statement:

"Those who have a hankering after the cheap lands of the far-West, should give attention to a fact, reported by a gentleman who says he has been in the United States Land Office for five years, that 'about one-half the homestead entries made are abandoned, and the land entered by others; in many cases the entry is abandoned three or four times before coming into the possession of persons who hold it permanently. Proof of six months' abandonment is sufficient to have the entry cancelled.' This alone, and there is no reason to doubt the fact stated, should convince those who have small means, how poor are their chance of success in regions where, if there are neighbors to be found, every one has as much as he can struggle under in his efforts to effect a 'clearing,' and hence if sickness or accidents of any kind should overtake the settler, what an amount of sorrow and trouble, and finally a loss of all the labor that may have been performed, must finally attack those who seek their fortunes in those desolate regions."

The International Society is reported to be organizing strikes with the object of preventing an international exposition at Vienna.

The Cause and Cure of Consumption.

The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired, having the slightest predisposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime which is clogging these organs so that they cannot perform their functions, and then rouse up and restore the liver to a healthy action. For this purpose, the surest and best remedy is Schenck's Mandrake Pills. These Pills cleanse the stomach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. They will clear out the liver of all diseased bile that has accumulated there, and arouse it up to a new and healthy action, by which natural and healthy bile is secreted.

The stomach, bowels and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid, and the appetite is poor, in the bowels, the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Seaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of a good digestion, and ultimately make good, healthy, living blood. After this preparatory treatment, what remains to cure most cases of consumption is the free and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens all morbid matters, whether in the form of abscesses or tubercles, and then assists Nature to expel all the diseased matter in the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenck's Pulmonic Syrup, that all ulcers and cavities are healed up sound, and my patient is cured.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion, so that the body will grow in flesh and get strong. If a person has diseased lungs, a cavity or abscess there, the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure is a new order of things, a good appetite, a good nutrition, the body to grow in flesh and get fat; then Nature is helped, the cavities will heal, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption, and if a person is very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gone, if there is enough vitality left in the other to heal up, there is hope.

I have seen many persons cured with only one sound lung, live and enjoy life to a good old age. This is what Schenck's medicines will do to cure Consumption. They will clean out the stomach, sweeten and strengthen it, get up a good digestion, and give nature the assistance she needs to clear the system of all the disease that is in the lungs, whatever the form may be.

It is important that, while using Schenck's medicines, care should be exercised not to take cold; keep in-doors in cool and damp weather; avoid night air, and take out-door exercise only in a genial and warm sunshine.

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold while using my medicines, I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured, and it is precisely the same in regard to consumption. So long as the lungs are not perfectly healed, just so long is there imminent danger of a full return of the disease. Hence it is that I so strenuously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed consumptives' lungs are a mass of sores, which the least change of atmosphere will inflame. The grand secret of my success with my medicines consists in my ability to subdue inflammation instead of provoking it, as many of the faculty do. An inflamed lung cannot with safety to the patient be exposed to the biting blasts of winter or the chilling winds of spring or autumn. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular, as without it a cure under almost any circumstances is an impossibility.

The person should be kept in a wholesome and nutritious diet, and all the medicines continued until the body has restored to it the natural quantity of flesh and strength.

I was myself cured by this treatment of the worst kind of Consumption, and have lived to get fat and hearty these many years, with one lung mostly gone. I have cured thousands since, and very many have been cured by this treatment whom I have never seen.

About the first of October I expect to take possession of my new building at the north-east corner of Sixth and Arch Streets, where I shall be pleased to give advice to all who may require it.

Full directions accompany all my remedies, so that a person in any part of the world can be readily cured by a strict observance of the same.

HARDY'S

In offering to the public at this time, HARDY'S GENUINE JAUNDICE BITTERS as a remedy for all Billious complaints, so prevalent everywhere in the vernal season of the year, I do not present any new and untried article puffed up by persons who perhaps are not known to any one, but an old and tried article that has proved itself equal, if not superior, to any remedy of the kind, ever put into the market.

GENUINE

While I do not pretend to say they will cure all diseases human flesh is heir to, I do say they have been used for the last half century, and thoroughly tested by millions, and by those, too, of almost every nation on the globe, and in every variety of climate, and have proved themselves, beyond all question, unequaled by any medicine, for all BILIOUS and JAUNDICY COMPLAINTS which are so common everywhere, and to prevent contracting infectious diseases peculiar to various climates.

JAUNDICE

These Bitters are not unpleasant to the taste, they are a moderate cathartic, cleanse the Stomach and Bowels of Phlegm and vitiated Bile, strongly invigorate the coats of the Stomach, promote digestion, and restore the loss of appetite.

They are invaluable for travelers, seafaring persons, and those exposed to sudden changes of weather in warm climates; to the dyspeptic, and persons of sedentary habits. To such, they afford the most speedy relief when taken according to directions.

BITTERS.

Put up in Papers at 25 cents per package, and in large Bottles at 75 cents each.

SENATE

A bill was passed exempting from internal revenue canned fish preserves, mustard &c

A bill from the Judiciary Committee to permit criminals to testify in their own defence was reported on adversely and placed on the calendar

Mr Sawyer from the Committee on Education reported adversely on a memorial for the establishment of an educational test for suffrage

Mr Chandler in a personal explanation said that a constituent of his had received certain political reform movement" and Liberal Republican" documents under his (Chandler's) and Senator Morton's frank — [illegible] Senators denounced this use of their franks as forgeries which might be expected of the managers of the Liberal Republican movement which was itself a fraud

The bill to admit 6 Japanese youths to the West Point Academy came up

Mr Casserly opposed the bill but it passed

The Senate resumed the consideration of the resolution to investigate the alleged sale of arms to French agents, and Mr Carpenter addressed the Senate

Mr Carpenter charged that certain American Senators were attempting to get up an excitement on a state of facts which had been known to everybody a year or more, for the purpose of affecting the next presidential election

Mr Sumner said that the facts were not known to him until a few weeks ago

Mr Carpenter replied that they might have been known to anyone who examined the reports of the Department There had been no concealment in the matter to attempt to cover up anything Everything done was in the face of Congress and the country The Senator from Massachusetts had compared himself and [illegible] to Cobden and Bright on the Alabama question, but there was one [illegible] difference between the cases — Cobden and Bright did what they did to prevent their country from committing a wrong But [illegible] wrong, had been committed they [illegible] for a committee of investigation with the purpose of making out a case against their country It had been remarked that Democratic Senators took no part in this discussion and the fact had been attributed to [illegible] Republicans engaged in [illegible] to injure their own party [illegible] feeling for the Democrat party having been a member of it as long [illegible] and he [illegible] them credit for a higher [illegible] willingness to take any part [illegible] proceeding

After some further remarks by Messrs Carpenter, Sumner and Schurz the resolve was adopted [illegible] nays The following [illegible] Edmunds Gilbert, Hat[illegible] Wright The preamble was laid on [illegible] except Mr Edmunds [illegible] directly

Mr Morton [illegible] said that Mr Sumner's voting to lay the preamble on the table was a confession that it was wrong, which Mr Sumner indignantly denied

The legislative appropriation bill was taken up and the Senate adjourned at 7

HOUSE

The bill granting an extension of time to [illegible] for the completion of the railroad from St Croix to Lake Superior was taken up [illegible] test on being on ordering to a third reading Several filibustering motions were made A motion to lay the motion to reconsider on the table was rejected—yeas [illegible]

A letter was read from the Commissioner of the General Land Office to Ketcham, Chairman of the Committee on Public Lands, expressing the opinion that the Northern Pacific Railroad Co be entitled to receive an indemnity for the lands covered by the withdrawal of the lands granted to the St. Croix and Lake Superior Railroad if that grant be revived and renewed, and if such indemnity is not obtained within the deficiency limits in the State of Wisconsin, the Northern Pacific [illegible] be entitled to select lands along other portions of [illegible] line The vote ordering the main [illegible] was then reconsidered—yeas 101,

Mr Holman of Ind, moved to refer the bill to Com on Public Lands, with instructions to amend it so as to grant to Wisconsin all lands specified, which would inure to the Northern Pacific Railroad Co under the existing laws if the grant was not revised

Mr Cox of N Y, argued in favor of Mr Holman's motion

Mr Banks of Miss, said that there was no portion of the country that had not been aided by State or Federal legislation to build up a system of transportation which had made the people what they are and without which they would degenerate into savage tribes warring against each other When corporations became too great, the people who created them would regulate them They would take the telegraph system and the railroad system into their own hands and make the great necessary right of transportation that which it ought to be instead of being as at present a system of robbery and wrong not only to private persons, but to public interests

Mr Stevenson of Ohio in the course of the discussion, spoke of creating monopolies by giving away timber lands which were said to be [illegible] and then creating new monopolies by putting a tariff on lumber so as to make these timber lands valuable The people demand that Congress should stop giving away the public domain

Mr Hay of Illinois, agreed with Mr Stevenson that it was the duty of every representative to signalize his opposition in an emphatic manner to the robbery of the National domain He had been credibly informed that there were bills pending that would cover two million acres

Messrs Speer and Holman took a similar ground The latter moved to table the bill Rejected 91 to 92

After further discussion, involving the question whether Col Scott, President of the Southern Pacific and Pennsylvania Central Railroad was or not opposing this bill and upon which opinions varied materially, Mr Holman again moved to table it Rejected [illegible]

Mr Holman then moved to refer the bill to the Com on Public Lands, with instructions Agreed to—yeas 102 nays 77

Mr Hazleton of Wis, asked that the Committee have leave to report at any time. Mr Cox of N Y and others objected

The House then adjourned

BANQUET TO THE JAPS

The Boston Board of Trade are arranging to give a banquet to the Japanese Embassy on its arrival here

THE WEATHER

War Department,
Office of the Chief Signal Officer,
Washington, Feb. 29—7 p m.

Probabilities

The low barometer over West Virginia will probably move northeastwardly over the middle Atlantic and southern New England States, the area of snow extending during the night over the latter, where the winds will veer to easterly. Northwesterly winds, with a rising barometer, falling temperature and clearing but partially cloudy weather, extend northwestward over the Middle States by and during Friday morning, and the New England States by Friday evening. Pleasant weather with northwesterly winds will prevail from the Ohio valley to the South Atlantic coast. Northerly winds veering to easterly are probable for the western Gulf States. Dangerous winds are not anticipated for the Atlantic and Gulf coasts.

THE HOUSE INVESTIGATION—STATEMENT OF SECRETARY BELKNAP

Washington, Feb 29 The House Committee on the Expenditures of the War Department to-day commenced an investigation into the sales of arms, The members present are Williams of Indiana, Barber, Snyder and Acker Kimmel is absent.

Mr Belknap, Secretary of War, stated that from the the first of June, 1870, to June 1871, the amount realized from the sale of arms was $9,748,942. He further stated that Executive document No. 80, of the date of Jan. 24, 1872, includes all the principal sales from 1865 to July, 1871, the names of the parties to whom sold and the month of the year of the sale etc. In the course of further examination as to the sales to Remington, he said that while he was in the Post Office Department Keller, Chief of the Ordnance Bureau, now deceased, came in and handed him the following dispatch —

Ilion, N Y, Oct. 13th

To H. C. Squiers, Arlington House Washington

Remington telegraphs if you have not yet bought for Government you will be able to do so on better terms By a decree of the Government issued yesterday, all arms entering France are liable to be taken as national property and paid for according to appraisement. Speculators in arms intended for France will find profits small Competition with you has been forced and fictitious"

The foregoing is a copy of a telegram left at the Ordnance office by H. C. Squiers, Oct 14 1870 General Belknap said he instantly sent word to Gen Dyer by Kellar, that the sales to Remington must be immediately stopped, as it was plainly shown that Remington was an agent of the French Government Gen Belknap then went in a carriage to the War Department and told Dyer that the sales to Remington must stop. By referring to the Executive document it will be seen that the last sale to Remington was 50,000 Springfield muskets They were not delivered till Oct. 30, though purchased before that time and before the delivery of the telegram Gen Belknap repeated over and over again to Dyer that no sales should be made to any agent of the French or Prussian governments No arms were sold to any agent of the French Government to his knowledge He had already stated the amount realized from the sale of arms, it was $9,748,942. Of this sum $9,309,236.80 has been deposited in the Treasury as per certificates on file $120,000 was reported in the hands of the depositors on the 30th of June, 1871, and the balance expended for fitting up stores In reply to a question by the chairman, as to the discrepancies between the documents of the War and Treasury Departments, Secretary Belknap said he was aware of none The close of the fiscal year of the War Department was the same as the Treasury Department, namely the 30th of June As to the Treasury books showing the amount received for arms, Gen'l Belknap explained that in almost every case payment was made by cash checks Margins varying from 5 to 20 per cent. are observed in large transactions, to secure the United States and checks are carried as quickly as possible and paid in the hands of the Government agent

Secretary Belknap was asked, Do you know of your own knowledge that any Government officers are interested in the sale of arms, directly or otherwise?

Answer—I do not

A very strong statement or intimation in connection with this matter, made to me by Marcus Chambrun, Jan 20th last. I asked him to name the persons, and then we went together to my private room, when I again asked him to name such persons or make a statement over his signature, or any statement by which I could convict of fraud any of these officers or other persons connected with the Government. He did not do so I kept a memorandum of the statement he did make to me, but it contains nothing from which I can obtain information relative to any officer of the Government. I begged him to give me some specific information, but he had none Our conversation went further, but I got nothing bearing on the point

The chairman said he had invited Senator Sumner to appear and give facts he might have to offer, but he would not come forward,

In order further to arrange for examination and to obtain official statements, which the Secretary indicated readiness to furnish being desirous of the investigation to be thorough, the committee adjourned until Tuesday of next week.

LOCAL AND OTHER ITEMS

—March First.

—This is St. David's Day

—The sleighing is still reported to be good on the country roads.

—We are promised some amateur theatricals on the 13th.

—Reports say the prospect of a good maple sugar season is excellent.

—The Street Commissioner is giving the sidewalks a coat of gravel.

—Dr. Talcott's exegesis of the Sabbath school lesson this evening at the First church

—March winds commenced to blow in February, but there seems to be a sufficient quantity left,

—The loser of a small sum of money is informed that it may be obtained at Ingraham's drug store

—Mechanics can now put in their ten hours work by daylight very comfortably—if they want to do it.

—Watch the button-holes of your overcoat and you'll see how that and the season are wearing away.

—The "clerk of the weather" doesn't seem to have his affairs in very good order lately. We move "an investigation."

—The ground is frozen to a great depth, as the workmen who have been digging to find leaks in the gas-pipes can testify.

—To day the early closing of stores arrangement, which has been in force since the holidays, ceases, and the clerks will find something to do evenings.

—A number of first-class players will be added to Harlow's Bangor Cornet Band in a short time, and when reorganized for the season it will be better than ever before.

—The benefit ball to Wm. Crombie takes place at Murry's, Pushaw, to night. Crombie's quadrille band will furnish music. Murry will get up the supper, and it will be a good one,

—We are pleased to learn that Robert Davis, esq., of this city, is rapidly recovering from the violent attack of sickness which came upon him at Sidney a few weeks since. He is now able to be out and is daily improving.

—A heavy sled, loaded with meal, took a side step to the right at Brewer Village Wednesday afternoon. There was too much load or too little sled, and that amount of freight required transhipment.

—The ladies of Alton Lodge, I. O. of G. T., will give a grand Fourth of March Ball on Monday evening next, in Alton Hall. They are making extensive preparations for the pleasure and comfort of their friends.

—The annual meeting of the Society for the Prevention of Cruelty to Animals, for the choice of officers and other business, will be held at the Common Council Room in City Hall on Tuesday, March 5th, at three o'clock P. M.

—A good horse belonging to Mr. A. P. Gould, who resides on Essex street, broke loose in the stable Wednesday night, and ate nearly a bushel of grain. The animal died yesterday morning Too much of a good thing

—A gentleman in this city Merrilly celebrated his tenth birthday yesterday. Notwithstanding the small number of natal anniversaries he has enjoyed, he has been married nearly a score of years and has several children.

Serious Accident. We learn that Mr A. B. Dyer, one of the prominent business men of Lagrange, was seriously injured in the woods Thursday morning, by being struck on the head by a falling tree, or limb. It is feared that his injuries will prove fatal.

An Overturn. One of the Eastern Express Company's pungs was tipped over Wednesday evening, and the contents scattered in the most promiscuous manner The market value of a ten-gallon can of oysters was materially affected by the affair.

Accident. The evening train on the E & N A. Railway yesterday, brought down a man who had been at work for Mr. Wilder, in camp about fifty miles beyond Patten, and who had both legs broken and was otherwise injured by a rolling log. We could not learn his name

Spring Song. Spring is coming, and the poet (who owns a garden) hatches out the following, in which he says there is more truth than poetry —

If your neighbor's hens are troublesome and steal across the way, don't let your angry passions rise; fix a place for them to lay!

Sales of Real Estate. We understand that J. C. White, esq., has sold to Mr. James C. Stodder, his elegant residence on West Broadway for $15,500 It is one of the most desirable situations in the city

Mr C C Prescott has purchased for $5,800 the house and lot No 5 Grove street, of Major Thomas Hersey

Rev. Mr. Chase's Resignation. Some time since we noted the fact that Rev S. L B. Chase had resigned the pastorate of the Second Baptist church in this city The church and society voted unanimously to request him to withdraw his resignation, but after due consideration, Mr. Chase has decided to insist upon its acceptance, to take effect April first.

Fire at Passadumkeag. The story and a-half dwelling house, ell and stable belonging to Col. Joseph Laing, of Passadumkeag, were entirely destroyed by fire about 4 o'clock yesterday morning. A portion of the furniture was saved The Colonel had got his buildings in excellent repair, and his loss will be quite heavy No insurance, as his policy expired a few weeks since

Bangor Insurance Company. The corporators named in the act incorporating the Bangor Insurance Co met yesterday afternoon at the office of Messrs. Chadwick & Hammatt. Hon F. M Sabine was chosen Chairman and John S Chadwick, esq, Clerk The act of incorporation was accepted, and it was voted to receive associates. Over $100,000 of the stock has been taken, After some discussion, the meeting was adjourned until Monday next at 2½ o'clock P. M.

Fire in Charleston Our correspondent writes that on Tuesday night, between the hours of 10 and 11 o'clock, the house, barn and out-buildings of Mr W S Randlet of Charleston were burned The families (there were two in the house) had just time to get out in safety, with only such clothing as they had on. The terrible wind, that was prevailing at the time made it impossible to save anything except the stock in the stable, consisting of two horses and three head of cattle. One of the ladies walked to a neighbor's, about fifty rods, with nothing on her feet but a pair of thin stockings, having lost her boots in the excitement of the moment. Mr. Randlet is a young man just married. He was a member of the First Maine Heavy Artillery during the war of the Rebellion, and was taken prisoner and confined at Andersonville five months. His old comrades will hear with regret of his misfortune, he having lost about all his earthly goods.

Explanation. *Mr Editor* —The young lady, Miss Mary Stoddard, (sister of Mrs. Hills, at whose house she has been ill with a fatal disease) has for some time past been so low that her death has been daily expected. Her mind has of late become shattered, sympathising with the increasing physical debility, till, on Monday evening, she in a wholly irresponsible condition, [illegible] [illegible] and [illegible] took an [illegible] of [illegible] which [illegible] was in [illegible] [illegible] [illegible] Although [illegible] [illegible] [illegible] would have [illegible] to have it anticipated by accident; therefore her rallying from the death-like slumber produced, was a great relief to her afflicted

Mother.

[The above communication was handed us prior to the death of the young lady, but we insert it according the explanation which her family desired to make.]

Business of the E. & N. A Railway. The fact is generally known that the business on the E. & N. A. Railway has largely increased during the past year, but the amount of the gain is not realized until one sees the statement in figures. We are indebted to Mr F W Cram, General Freight Agent, for some statistics showing the increase, in advance of the annual report. During the month of January, 1871, the earnings of the road were—Freight, $8,340.80, passengers, $4,980 90, transportation of mails, $768.43—Total, $13,970.13. For January of this year, the earnings were as follows —Freight, $12,691.77; passengers, $10,183.94; mails, $2,652 17—Total, $25,527.88. This shows a total gain in earnings over the corresponding month in the previous year of $11,557 75, of which $4,350 97 was gained on freights, $5,203 04 on passenger receipts, and $2,003 74 on payments for carrying the mails.

The following tables show the amounts received for freights, and the amount of freight (in pounds) carried over the road, during the two past years.—

This exhibit shows that during the past year, 86,593,500 lbs. more freight were carried over the road than in 1870, with an increase in receipts for freight transportation, of $34,238.93. When it is considered that the road was open only to Mattawamkeag until October last, it will be seen that the increase will be far greater this year, when the road is open through to St. John

The Barnabee Concert. A large an appreciative audience filled Music Hall last evening on the occasion of the concert by Mr. Barnabee and his associates, who were most warmly received and enthusiastically applauded at the close of every piece on the following

Mrs. Smith, Mr. Fessenden,
Song —Mrs Watkins' Party — *Hutton*
Mr Barnabee
Trio —Le Toreador. — *Adam.*
Mrs. Smith, Mr Fessenden, Mr Barnabee

Mrs Smith's powerful yet pure and highly cultivated soprano never appeared to better advantage, and she received a well-deserved recall on her solos, as well as in the duet with Mr. Fessenden and the trio with Messrs. Fessenden and Barnabee Her rendering of "The Chalet Horn" (with cornet obligato by Mr, Arbuckle) was particularly fine, and the audience insisted on its repetition Mr. Fessenden, as our readers well know, is one of the best tenors that ever sang in Bangor, and in his selections did himself and his excellent voice full justice. His ballad was encored, and in response he sang "You and I" Mr Barnabee, as usual, delighted the audience, both in his songs and his humorous pieces. His first song, 'The Monks of Old," received an encore, on which he sang the amusing "Sneezing Song"; and "Mrs. Watkins' Party" was so much enjoyed that to tone down the exuberant fun he sang with appropriate illustrations "The Blessed Rheumatiz" in a style to draw tears from the hardest-hearted person in the hall Mr Arbuckle, whose cornet playing has in many respects never been excelled in America, was recalled on each of his pieces, playing in response "Home, Sweet Home," and the "Blue Bells of Scotland," each with variations. Mr Dow's piano-forte accompaniments were perfect, and his solo, "The Last Hope" displayed the facility and brilliancy of execution for which his playing is remarkable As a whole, the concert was exceedingly enjoyable; may we have many more like it.

THE POPULAR LOAN.

Northern Pacific Bonds!!

$6,000,000

Of these bonds were sold in London and over

$1,500,000

Sold in the United States during the month of January

These Bonds have sold, during the past year, to an extent unequalled by those of any other Corporation, and they have now taken their place among the solid and favorite securities of the country.

This is because the Bonds are based upon the amplest security, being a FIRST AND ONLY MORTGAGE "upon the railroad, franchises, and all the lands and property, and rights of property, real and personal, now in possession by the Northern Pacific Railroad Company, or which the said Company may hereafter acquire" The Land Grant of the Northern Pacific Railroad will average over 23 600 acres to each mile of road This land is capable of producing in abundance all the Fruits, Vegetables and cereals of the Eastern or Middle States

THE VALUE OF LAND GRANTS

The average price at which twenty-six land grant railroads have thus far sold their lands is $7 04 per acre—the highest average of any grant being $13 36, and the lowest $3 07. With few exceptions, the average selling price has increased from year to year The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more saleable than those of most other grants but, sold at the general average of 7 04 per acre, they will yield more than $161,000 per mile of road—more than three times the possible cost of construction and equipment, or, at the lowest average of any grant (3 07) they will produce more than $70,000 per mile, which is $20,000 per mile more than the company are allowed to issue bonds

TRAFFIC ON PACIFIC RAILROADS

As officially reported, the gross earnings of the present Pacific Railroad (Union and Central) for 1871 the second year of through business (December earnings estimated), reach Seventeen Millions and a Quarter. Of this 65 per cent is from Local Business, and, it is stated, fully 55 per cent or nearly Nine and a Half Millions, are net over operating expenses

An equal traffic on the Northern Pacific Road will pay a dividend of 9½ per cent on its total cost With its great and unquestioned advantages in distance grades, climate and tributary fertile country, the Northern Pacific is assured of a vast and profitable business from the outset, with a large increase for the future

These facts regarding Pacific Railroad earnings, and the market value of Railroad Lands, as shown by actual sales to settlers, show the unquestioned security of Northern Pacific Railroad Bonds

CONSTRUCTION OF THE ROAD

The road is completed to the eastern boundary of Dakota, the Red River of the North, a distance of 255 miles, On the Pacific coast, 65 miles are under construction, the greater part of which is completed —including purchased lines, the Northern Pacific Company, have now nearly 600 miles of running road Contracts are let for the construction of 635 miles more, to be finished before the close of 1872

WE WOULD RECOMMEND THE NORTHERN PACIFIC SEVEN THIRTY GOLD BOND AS ONE OF THE BEST AND SAFEST SECURITIES NOW OFFERED TO THE PUBLIC

In this security are combined the high credit of a first-class Railroad Bond with the solidity and safety of a Real Estate Mortgage on Land worth more than twice the amount loaned

These Bonds are payable in 1900—bear 7 3 10 per cent interest in GOLD, payable first of July and January, are FREE OF U. S. TAX—are receivable at 10 PER CENT PREMIUM for the Company's lands at the LOWEST CASH PRICE, and are issued in the following denominations Coupon bonds, $100, $500 and $1,000 Registered bonds $100, $500, and $1,000, $5,000 and $10 000

The proceeds of all sales of Land are required to be devoted by the Trustees of the bondholders (Messrs Jay Cooke and J Edgar Thompson) as a Sinking Fund to the purchase and cancellation of the first mortgage bonds

EXCHANGING 5-20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low interest bond—$140 000 000 having been called in for cancellation since September 1st—many holders of 5 20s are exchanging them for Northern Pacifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one-third

All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven-Thirties without expense to the investor

For further particulars concerning this Bond, or purchase of the same, apply to the undersigned.

BE ECONOM[illegible] [illegible] your expenses No matter what [illegible] more goes out, you will always be poor. The art is not in making money but in keeping it. Little expenses, like mice in a barn [illegible] they are many, make great waste Hair by hair heads get bald, straw by straw the thatch goes off the cottage, and drop by drop [illegible] in the chamber A barrel is soon empty [illegible] the tap leaks but a drop a minute When you mean to save begin with your mouth; many thieves pass down [illegible] is a great waste [illegible] other things keep within compass Never stretch your legs further than the blankets will reach or you will soon be [illegible] clothes [illegible] suitable and lasting [illegible] tawdry [illegible] To be warm is the main thing, never mind the looks. A fool may make money but it needs a wise man to spend it. [illegible] is easier to build [illegible] than to keep one going [illegible] give all to back and board there is nothing left for the savings bank. Fare hard and work hard while you are young and you will [illegible] chance to rest when you are [illegible]

PROVERBIAL [illegible] OF GEORGE ELIOT—George Eliot [illegible] Spectator thinks is the [illegible] time whose writings will be remembered for the humor alone, and quotes such sentences as these: "A maggot must be born i' the rotten cheese to like it," [illegible] making a pudding wi' thinking [illegible] be easy getting dinner [illegible] It's poor eating when the flavor o' the meat lies i' the cruets There's folks as make bad butter and trusts to the salt t' hide it." Or this, in condemnation of the habit of perpetually praising the dead: "It's but little good you'll do a watering last year's crop." Or this: "I know the way o' wives, they set one to abuse their husbands, and then they turn around on one and praise em as if they wanted to sell 'em." "If old Harry's a mind to do a bit o' kindness for a holiday like who's got anything against it?" "As for age, what that's worth depends on the quality o' the liquor." This is the shrewdness of insight, not the shrewdness which comes of observation, like the description of a Scotch gardener, perhaps the very best description of that kind of conceited efficient ever put into words: "You're mighty fond o' Craig; but for my part, I think he's welly like a cock as thinks the sun's rose o' purpose to hear him crow."

DE MORTUIS.—Dick Turpin is dirty and gay, but he is a corrupter of youth. It is not difficult to be generous with the money of others A year ago it was announced that Greed had given forty or fifty thousand dollars to the poor. "There," said the admirers of Turpin, "you may say what you will of Greed He, too, is not a polished man; he is not a scholar nor a dainty gentleman; but he is one of the people; he is large-hearted and generous, Who else has given fifty thousand dollars to the poor?" Yes, and who else has stolen five millions? The politest gentlemen of the highway were notoriously gallant. The Marquis of Goutytoe they compelled to descend from his carriage and sent the trudging market woman home in it. They eased the pockets of the Spanish embassador, and threw a doubloon to the leper hiding behind the hedge It was a cheap munificence So was Greed's. It was not his fifty thousand dollars, the giving of which caused such a burst of good feeling and the exclamation, 'There now" It was only a little of the millions that were not his He gave it to the poor dwellers in tenement houses and it was said that there was no wretched hovel to which he did not send a load of coal or a barrel of flour during the winter months. But he took them first from their wretched dens Somebody paid the taxes that he stole and it is the poor who at last pay taxes. Where be the bad people buried? When Turpin dies, we have Greed's opinion of him and his ways gravely paraded in a newspaper Madame Brinvilliers's opinion of Lucrezia Borgia would be edifying reading!

Shall we have no charity then? and when a man lies dead and defenseless shall not warfare cease? Warfare may cease but shall death condone all offenses? The malignant [illegible] who denounced his rival to the Inquisition [illegible] at the very moment of his [illegible] fell dead—shall we write [illegible] De mortuis? Shall we [illegible] whose sons he corrupted go dumb [illegible] behind the corpse of Catiline? When a bad man dies let us say that he was [illegible]. Although he was very rich and very [illegible] shall we remember only that he [illegible] charity one quarter of one per cent [illegible] amount of his thefts? The Italian [illegible] when his band had slaughtered [illegible] travelers said, There are twelve of [illegible] we will share equally but the first [illegible] share shall be for the mother of God" When we tell his story shall we see only that [illegible]. The last year has purchased a hun[illegible] the text that money may be [illegible] early and [illegible] screen that [illegible] public morality.—[illegible]

DEATHS IN THE COAL MINES.—The statistics kept by the Pennsylvania mine [illegible] in the anthracite region are all [illegible] up to for the year 1871 The death [illegible] the statistics is startling and [illegible] total of 27 men killed outright and [illegible] by accidents during the year [illegible] unfortunate men left, on a close est[illegible] widows and between 500 and 600 [illegible] children The Scranton Republican [illegible] estimate of the nature of the accid[illegible] and believes [illegible] can place the responsi[illegible] where it belongs About one third of [illegible] whole number of those killed, it says met [illegible] death on account of the neglect of operators to make second openings to their mines Another third were killed by the explosion of gas, which would have been [illegible] if [illegible] during every minute to be [illegible] by an experienced miner with a [illegible] lamp before the workmen enter it had [illegible] with About one sixth lost [illegible] lives through their negligence in not [illegible] attention to the roof of the [illegible] otherwise, with the remaining one [illegible] the whole number were killed by [illegible] and unavoidable accidents [illegible] Star

A REMEDY FOR THE HEADACHE.—Dr [illegible] in the Edinburg Medical Journal [illegible] advocates the use of turpentine in the severe headache to which nervous and hysterical women are subject. There is moreover, he says, another class of sufferers from headache, and this is composed of both sexes who [illegible] be relieved by turpentine I refer to the [illegible] headache which is most apt to occur after prolonged mental effort, but may likewise be induced by unduly sustained physical exertion—what may be styled the headache of a fatigued brain A cup of very strong tea [illegible] this form of headache, but this remedy with not a few is perilous, for bringing relief from pain it may produce general restlessness, and—worst of all—sleeplessness Turpentine in doses of twenty or thirty minims, given at intervals of an hour [illegible] will not only remove the headache, but produce [illegible] in a wonderful manner that [illegible] influence to which reference has al[illegible]

ORIGIN OF A SAYING.—A correspondent writes "I have vainly endeavored to ascertain the origin of the saying 'If the mountain will not come to Mahomet Mahomet must go to the mountain' Can you enlighten my ignorance?" It is said that when Mahomet first declared his system of religion to the Arabs they demanded proofs of his mission [illegible] such as Christians claimed for Jesus and Moses. Mahomet replied that it [illegible] tempting God, and provoking His wrath to grant their demand Nevertheless, he commanded Mount Sofa to come to him. Of course it didn't Whereupon he exclaimed [illegible] is merciful! Had it obeyed my [illegible] it would have fallen on us to our destruction. I will therefore go to the mountain and thank God that he has had mercy [illegible] generation."—Literary W[illegible]

75,000 Acres

OF GOOD

Timber Land

For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County, New York

Said timber consisting of White Hemlock, Spruce, Pine and Hardwood. The subscribers own two large tanneries, located on the aforesaid tract which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate The timber is excellent in quality in all particulars. The aforesaid tract of land is easy of access being only from six to fifteen miles from both the Black River R R and Black River Canal, which lead direct to the Albany Market The land is comparatively level, well watered and good for farming purposes Moose River, which extends through the tract, is a large stream and empties into Black River where the aforesaid Canal leads into Black River At this point, or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow thus forming an unlimited water power, (we might say right in the Canal and at the Depot,) to which Moose River will carry the immense amount of timber from the aforesaid lands

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention The land and timber can be purchased at a cheap rate or the timber alone permitted

GLOUCESTER, Mass., Dec 26, 1871.

F W KINSMAN, Esq — My Dear Sir Excessive business calls alone prevented my sooner acknowledging the receipt of your very valuable favor, and I am now glad to say that your Adamson's Botanic Cough Balsam is the most efficacious preparation for coughs and colds that I have ever had in my family At the time it was received I was suffering badly with Asthma, attended with a dry, hard Cough both of which left me immediately after taking the mixture The latter has not returned It has been several weeks

We, the undersigned having enjoyed for many years an intimate personal acquaintance with Deacon Theodore B. Perkins, would certify that his case of Asthma was as bad as any that has ever come under our notice, and that to our knowledge, on account of this illness he went to California, where he remained about one year undergoing treatment for the disease

BOOTHBAY, Dec 20, 1871

MR W F KINSMAN—Dear Sir For the last 5 years I have been troubled with a cough, have spent one winter in Florida, taken about everything in the shape of patent medicines and doctors' prescriptions, and I can say that your Adamson's Botanic Balsam is the best thing I have found for a cough I have been using it some three months and am about well

Yours truly, S B YOUNG,
Formerly of Augusta

AUGUSTA, Jan. 2d 1872

MR KINSMAN I have been troubled with Asthma attended with a Cough, ever since I was six years of age, have tried various remedies Commenced using Adamson's Botanic Cough Balsam some time in January, 1871, and I seemed to act like magic curing me at once I have had but little cough since, and I think that it is the best remedy to be found for Asthma. I have since recommended it to quite a number, and it has given good satisfaction F M FOLGER

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

SOLICITOR OF PATENTS
For Inventions, Trade Marks or Designs
No 76 State Street, opposite Kilby Street, Boston.

After an extensive practice of upwards of thirty years continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."

LAWS OF THE UNITED STATES.

Passed at the Second Session of the Forty-second Congress.

[GENERAL NATURE—No. 1]

AN ACT relating to the limitation of steam pressure on towing and freight boats on the Mississippi river and its tributaries.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled That the provisions of an act entitled An act to provide for the better security of life on vessels propelled in whole or in part by steam" &c, approved February twenty-eighth eighteen hundred and seventy-one, so far as they relate to the limitation of steam pressure of steam boats used exclusively for towing and carrying freight on the Mississippi river and its tributaries are hereby so far modified as to substitute for such boats one hundred and fifty pounds of steam pressure in place of one hundred and ten pounds as provided in said act for the standard pressure upon standard boilers of forty two inch diameter, and of plates of one-quarter of an inch in thickness, and such boats may, on the written permit of the supervising inspector of the district in which such boats shall carry on their business, for a period of six months from and after the passage of this joint resolution be permitted to carry steam above the standard pressure of one hundred and ten pounds but not exceeding the standard pressure of one hundred and fifty pounds to the square inch
